SEBI • EQUITY DERIVATIVES • ONE FINANCIAL YEAR

₹91,685 crore

lost by individual traders in India last year — most of it by people learning to trade with real money.

87.7%

of them lost money

₹1.17 lakh

average loss per trader

78.6 lakh

people. In one year.

The youngest traders lose the most.

43%

of India's F&O traders are now under 30 – up from 31% four years ago

89%

of those under-30s lost money – worse than any other age group

3 in 4

earn under ₹5 lakh a year. They are learning on money they cannot afford to lose.

74% of Indians who don't invest say the market is too complex. They don't need another video. They need a place to practise.

100 TRADERS UNDER 30, ONE YEAR

THE SOLUTION

Trade the real market. Lose nothing.

- 01 Live NSE & BSE prices – the same candles a broker terminal shows
- 02 Market, limit and stop orders; intraday and delivery; long and short
- 03 Faculty host a room; every student starts with the same virtual corpus
- 04 A live leaderboard ranks the room by P&L – zero real money at risk

Actual product screens,
Sept 2026

HOW IT WORKS

One room. One corpus. One leaderboard.

A full trading competition,
hosted by a teacher, in under
five minutes.

MARKET OPPORTUNITY

Students today. Investors next year.

59% of new NSE investors are under 30

TRACTION – PROOF, NOT PROJECTION

100 MBA students.
One live room.
₹0 at risk.

Piloted with IEM's MBA batch on live NSE/BSE data.
The product on this screen is the product students are already using.

Live P&L, positions and analytics – every trade auditable by faculty

BUSINESS MODEL

Students never pay. Colleges do.

Priced against Seekho (₹149/mo), Sensibull Lite (₹480/mo) and campus software at ₹99–279 per student per year.

FREE

₹0

Full simulator, live data. Ads shown. No AI coach.

INDIVIDUAL

₹149/mo

or ₹999 a year. Ad-free. AI trade coach when it ships. Priced below one Sensibull month.

INSTITUTION ·
CORE REVENUE

₹199

per student, per year
₹50,000 minimum per college

College licenses its student strength. Students get the full product free. Faculty get admin rooms, cohort reports and every trade on record.

1,000 students = ₹1.99 lakh
a year

UNIT ECONOMICS · AT 1,00,000 USERS

Break-even in year one. Margin on every renewal.

80%

contribution per student: ₹199
price - ₹40 cloud & data = ₹159

4 : 1

LTV to CAC per college: ₹3.2 L
over a 2-year contract vs ₹0.8 L
to sign

35%

margin in year 2: same
colleges renew, ₹48 L of sales
cost disappears

GROWTH PLAN

One campus at a time, a thousand students at a time.

Targets, not results. Revenue at today's prices and mix.

COMPETITIVE LANDSCAPE

Real market, or built for a class. Nobody does both.

No Indian broker sells paper trading. Zerodha bundles Sensibull; Groww and Angel One have none.

Faculty-hosted rooms

Solo learner

WHAT'S NEXT

From a simulator to a coach.

NOW · SHIPPED

Hosted competitions

Live NSE/BSE data, full order types, room leaderboard, faculty admin view. Running at IEM.

NEXT · 12 MONTHS

AI trade coach

Reviews every trade, flags the mistake, explains why in plain language. Compares you to the room. Paid tier.

LATER · 24 MONTHS

Campus analytics

Cohort dashboards for faculty, inter-college leagues, placement-ready trading records.

India learns to trade at full price.

Our students learn on TradeSim first.

100 students at IEM already do. Bring the next room to your campus – we set it up, your faculty runs it.
